DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "8_F" for the "flat front mounting surface". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Also figure 7 appears to be informal as well as references numerals "108_R" and "39a" in figures 4B and 5 respectively. Appropriate correction is required.

Specification

2. The disclosure is objected to because of the following informalities: on page 10, line 5 and page 15, line 2, the phrases "for selective adjust the preload" and "for selective adjust their position" respectively are not clear; on page 11, line 8, the specification references "Fig. 4", however no figure is labeled as such.

Appropriate correction is required.

Claim Objections

3. Claims 1-20 are objected to because of the following informalities: in claim 1, line 9, "the" should read --an--; in claim 9, line 6, "plate" should be deleted; in claim 10, line 7, --portions-- should be inserted after "hub"; in claim 14, line 2, "plate" should be deleted; in claim 19, line 2, "flat" should be deleted; in claim 20, line 4, "having" should read --has--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. The term "substantial" in claims 1, 9 and 10 is a relative term which renders the claims indefinite. The term "substantial" is not defined by the claims, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is not clear what is considered a "substantial resistance".

7. Claim 6 recites the limitation "said rear mounting surface" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

8. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
